

Medical equipment

As a User

I would like the software to remember my settings

So that I don't have to re-calibrate and re-configure the software each time I use it

As an Embryologist

I would like to be able to replay stored videos of procedures

So that I can see how they were performed

As a Patient

I would like to see confirmation that both me and my embryo have been identified correctly

So that I can relax and feel confident

Airline website

Epic

As a user I want to be able to search flight status by flight number, airport or route **so that** I can remain informed

Stories

1. As a customer I expect all flight status search panels that contain a date field to be defaulted to today's date
2. As a customer don't show me routes that are not operating on the date I am searching for on the flights status search
3. As a customer with JS turned off/before JS script displays the stretched background I want to see a background image displayed
4. As a customer I want to see predictive text results displayed after I type in the first letter to make it really easy for me to select

Airline website

Epic

As a user I want to be able to search flight status by flight number, airport or route **so that** I can remain informed

Stories

5. As a customer using Flight Status I want to be able to select from a list of flight numbers
6. As a customer using Flight Status I want to be able to select from a list of routes
7. As a customer using Flight Status I want to be able to select from a list of airports

Exercise: Rewrite airline stories

As a user I want to be able to search flight status by flight number, airport or route so that I can remain informed

As a customer looking at flight status, where a flight is delayed or cancelled I want to see a message explaining to me what I need to do next

Media company (iOS application ~2013)

Number:	1234
Title:	Static full page AD in both orientation modes
Description:	As a Tester I want a number of full page ad creatives So that I will have something to test
Conditions of Satisfaction:	At least 2 static landscape image ads exist for testing with dimensions (1024x747) At least 2 static portrait image ads exist with dimensions (768x1003)

Number:	1235
Title:	First crack hard coding...
Description:	<p>As a Developer</p> <p>I want to see a full page static ad being displayed in webapp using the ads library api but the underlying code can reference a hard coded image</p> <p>So that I have a starting point to build further full page functionality into the webapp</p>
Conditions of Satisfaction:	<p>Scenario 1: Static full page portrait ads available to test</p> <p>Given the user is testing static ads and the user is holding the ipad in portrait mode</p> <p>When the full page ad slot is viewed</p> <p>Then I expect to see a static portrait image ad and there are at least two ads to display</p>

Number:	1236
Title:	Natasha adds 1 full page ad slot into the web app
Description:	As a developer I want Natasha to put 1 full page ad slot into the webapp So that we can begin testing full page ad calls
Conditions of Satisfaction:	<p>Scenario 1: Full page ad on second swipe (between section 1 and section 2) Given the user is on the Front Page of the webapp and user has swiped to the left once pulling the right hand (section 2) section into view When the user swipes to the left once more Then I expect to see an empty full page add slot and the pull down section page navigation menu is hidden and inaccessible and the Natasha code will make will make a call to the ad library or a full page ad</p> <p>Scenario 2: Full page ad continues to next section Given the user is viewing the full page ad When the user swipes to the left or right on the ad Then the next section (1) page is shown</p>

As an Advisor, I want to enter the customer's postcode to be used in the purchase annuity calculation.

Acceptance criteria: Valid postcode

Format	Example
<alpha><numeric><space><numeric><alpha><alpha>	L1 1BA
<alpha><numeric><numeric><space><numeric><alpha><alpha>	L60 1CD
<alpha><alpha><numeric>space<numeric><alpha><alpha>	LE1 1SU
<alpha><alpha><numeric><numeric> <space><numeric><alpha><alpha>	LE10 3JA
<alpha><numeric><alpha><space><numeric><numeric> <alpha><alpha>	W1B 5PW
<alpha><alpha><numeric><alpha><space> <numeric><numeric><alpha><alpha>	WC2H 8DN

- Alpha characters can be entered in uppercase or lowercase
- Postcode field must not be blank
- Maximum number of characters should be 8
